DESCOMPLICA UNIVERSITY

Bachelor's in Computer Science (Expected Jun. 2026)

PROFESSIONAL EXPERIENCE

APTA SISTEMAS DE AUTOMAÇÃO INDUSTRIAL – BELO HORIZONTE, MG

IT and Infrastructure Intern

Mar. 2024 – Present

- Designed and developed the License Manager project from scratch using C#, .NET, and Angular
- Contributed to the development of internal systems (Slock, Aerocina, Fundouro) by creating new interfaces, adding features, and enhancing database interactions
- Fixed bugs and performed improvements across several systems, handling the full development cycle, including deployment on the intranet and AWS
- Created comprehensive technical documentation, user manuals, and use case documentation for all stages of the projects
- Conducted manual testing, recorded test cases and results, and ensured system functionality before delivery
- Managed Git repositories using branching strategies for version control and collaboration
- Handled database operations including query optimization, backups, and data restoration
- Provided IT infrastructure support, performing maintenance, formatting, and configuration of internal computers
- Managed IT assets (notebooks, peripherals), keeping inventory and ensuring traceability
- Developed and presented internal technical presentations to facilitate team alignment and knowledge sharing
